

CBD15

ELECTRIC PALLET TRUCK

With a load capacity of 1500 kg, the CBD15 can easily handle heavy loads, making it an ideal choice for warehouses and production halls. The lifting height of 200 mm and the lowered fork height of just 85 mm provide versatility in operation, allowing the transport of various types of pallets and goods. Its design ensures impressive stability, which is crucial when maneuvering in narrow spaces.

The 0.4 km/h electric drive, powered by a 24V battery with a 35A capacity, ensures long-lasting operation, offering up to 8 hours of work without a load. This makes the CBD15 not only efficient but also easy to operate for the staff. Users can fully focus on their tasks without worrying about frequent charging, significantly improving work efficiency. The durability of this pallet truck is reflected in the materials used and the thoughtful construction. With a weight of 156 kg (with battery), the CBD15 is designed to withstand intensive use, and its durable drive wheels, sized 250x74 mm.

■ Specification

Model	CBD15 – 1.5T
Battery weight	(± 5%): 7.0(kg)
Battery voltage	24V
Drive wheel size	250x74 mm
Number of wheels	(front / rear) x = drive wheel: 4/1x
Noise level	≤70(dB(A))
Weight (with battery)	156 kg
Type of drive control	AC
Battery capacity	35A
Balance wheel size	80x60 mm
Tread	390/535 mm

■ Operating range

Lifting height	200 mm
Turning radius	1340 mm
Maximum incline without load	8 %
Load traveling speed	4.2 km/h
Maximum incline with load	3 %
Lowered fork height	85 mm
Wheelbase	1173 mm
Unload traveling speed	4.5 km/h

■ Dimensions

Overall length	1615 mm
Overall width	540/685 mm
Ground clearance under mast	35 mm
Machine height	465 mm
Fork width	540/685 mm
